2. WORKPLACE SAFETY AND HEALTH COMMITTEE (SHC) ORGANISATION CHART

The establishment of Workplace Safety and Health Committee (SHC) shall comply with Workplace Safety and Health (Workplace Safety and Health Committees) Regulations, 2014. If applicable, please fill in the name and position of Workplace Safety and Health Committee Members and to include flowchart. The rows for management representatives and employee's representative can be added. If not applicable, write 'NA' in column NAME only and skip 2.1.

Note: Refer **Regulation 6b**; employees' representative ≥ management representative

NO.	NAME	POSITION	MEMBERSHIP
1			Chairman
2		WSH Officer/Coordinator	Secretary
3			Management Representative
4			Management Representative
5			Employee Representative
6			Employee Representative

2.1 WORKPLACE SAFETY AND HEALTH COMMITTEE (SHC) ACTIVITY PLAN

Instruction: Please prepare a plan for the committee to execute their functions at project site. Add rows for more activities and add columns for additional weeks (W) or months (M).

ACTIVITIES	ACTION BY	M1/W1				
Site Inspection						
Promotion Program						
Meeting						
Toolbox Talk						
Discussion on current SHENA publications						

3. WORKPLACE SAFETY AND HEALTH OFFICER (WSHO) / WORKPLACE SAFETY AND HEALTH COORDINATOR (WSHC)

To submit copy of WSHO/WSHC Registration with SHENA and List of Duties and Responsibilities.

Instruction: Please attach a copy of the following documents.

3.1 COPY OF CERTIFICATE OF APPROVAL FROM SHENA (WORKPLACE SAFETY AND HEALTH CO-ORDINATOR)

3.2 COPY OF CERTIFICATE OF APPROVAL FROM SHENA (WORKPLACE SAFETY AND HEALTH OFFICER)

3.3 LIST OF DUTIES AND RESPONSIBILITIES REFER REQUIREMENTS OF WORKPLACE SAFETY AND HEALTH OFFICER & WORKPLACE SAFETY AND HEALTH COORDINATOR (2022/IGN/02(01)

WSHO List of Duties and Responsibilities 1. Implement, direct, coordinate, and administer the HSE programs and HSE plan at the Project. Apply relevant HSE standards, regulations, and rules. Oversee and advices the established HSE committees at appropriate level of worksite management/supervision. 4. Provide support to the Project Engineer in implementing the HSE programs and specific HSE plan 5. Establish and maintain liaison between the third party and Government representatives in compliance with their HSE program. Oversee the compliance with Accident Investigation Reporting and Record keeping as mandated by SHENA as per rules and regulation. Review and investigate any incident that reflects to the performance. Provide timely report of findings and actions for evaluation and record keeping. 8. Ensure that all workplaces are regularly inspected based on the potentiality of the work scope. 9. Execute and oversee HSE education and training programs to all personnel. 10. Identify HSE resources necessary to rectify unsafe and unhealthful working conditions. Maintain the list of HSE abatement actions and coordinates with cognizant supervision till completion. 11. Consult and maintain liaison with medical personnel to eliminate or control the unhealthful working condition and occupational disease hazards, and promote a total occupational health program Ensure compliance with SHENA Incident reporting and investigation procedure. Lead the incident investigation team (depending on the potentiality), prepares, and reviews the report prior to submission to client representative. 13. Participate &/or lead the concentrated site visit, audit, inspection, meeting, and 14. Ensure all the Company HSE program are implemented and complied (i.e. HSE target, plan, standards, procedure, and system). 15. Ensure adequate HSE involvement and awareness by all personnel in accordance with client and COMPANY standards. 16. Support Contractor's Operation Advisor and other representative in case of any emergency and in-charge of providing up to date info. 17. Oversee the implementation of the client' ISO-14001 (Environmental Quality Management). 18. Any other HSE responsibility under this position required by the project.

3.4 Safety and Health-Related Scope of Work Checklist for WSH Officer & Co-Ordinator. Refer the job scope of WSHO/WSHC issued by any current NTI by completing ANNEX B (currently 2023/NTI/14);

SAFETY AND HEALTH-RELATED SCOPE OF WORK CHECKLIST FOR WSH OFFICER & CO-ORDINATOR

(in reference to Pages 6 & 7 of Industry Guidance Note (IGN): The Requirements of Workplace Safety and Health Officer & Workplace Safety and Health Co-Ordinator [2022/IGN/02 (01)])

NO.	JOB SCOPE	YES	NO	N/A
1	Understand the legal requirements associated with the work activities carried out at the workplace.			
2	Review, develop and engage workplace safety and health policies , plans and manuals , according to the work activities			
3	Develop and implement safe work practices and procedures required in the work activities, for example, permit-to-work systems, job hazard analysis, etc.			
4	Develop and execute training programmes for personnel at the worksite as seen relevant to the work activities, for example, safety and health training for specific job activity, safety health training awareness for supervisors and workers, competency training for skilled workers, etc.			
5	Facilitate and participate in group meetings to discuss the safety and health of the work activity, for example, workplace safety and health committee meetings, toolbox talk meetings, safety briefings, management meetings, etc.			
6	Develop and execute procedures for incident reporting , dangerous occurrences and investigation processes in the workplace including incident investigation and root cause analysis.			
7	Develop safety and health in-house rules within the workplace premise, for example, safety signage, observation process and practices to uphold intervention culture, personal protective equipment requirements according to activity, etc.			

8	Promote safety and health culture at the workplace through sharing sessions such as daily toolbox talks, safety and health inductions, safety campaigns, etc.		
9	Conduct safety and health audits/inspections in the workplace.		
10	Develop and execute maintenance regimes for the workplace such as hand tools, plant, machinery and equipment including emergency preparedness equipment schedule, servicing and maintenance procedures as well as records.		
11	Develop and implement a reasonable system for evaluation, selection and control of contractors.		
12	Conduct effective hazard identification and risk management in the workplace including risk assessment and documentation.		
13	Establish onsite and offsite emergency preparedness in the workplace including identification of different emergency situations, emergency plans, the establishment of emergency response personnel, conduct emergency drills/exercises, and first aid programmes.		
14	Manage the control of movement and use of hazardous substances as applicable in the workplace.		
15	Socialise SHENA's Legislation, Approved Code of Practice, Notes to Industry, Industry Guidance Notes and Notices as well as other relevant publications to the workforce.		
16	Implement SHENA self-assessment checklists, for example, the Construction Self- Assessment Checklist, etc. or in-house checklists to ensure legal compliance on safety and health requirements in the workplace.		
17*	Participate in the review of Safety Cases development and verification of its implementation within the COMAH (Control of Major Accident Hazards) facilities [as applicable for WSH Officer who is working within COMAH facilities].		

Page 2 of 2

4. DESIGN OF PLANT AND TEMPORARY STRUCTURES

- To submit copy of Design of Plant and Temporary Structures (Refer PWD OSH Spec 1.3) and
- To provide copy of proposed "Site Layout Plan" or
- "Temporary Work Zone" (Road/Road Side Works) of the worksite (Refer to MOD HSE Manual).

Instruction: Please attach the copy of below documents. If the project will use any plant or temporary structure as stated in 4.2, please attach the copy of endorsed design by a Qualified Person (QP) or Professional Engineer (PE).

4.1 Site Layout Plan / Temporary Work Zone (TWZ)

Example:

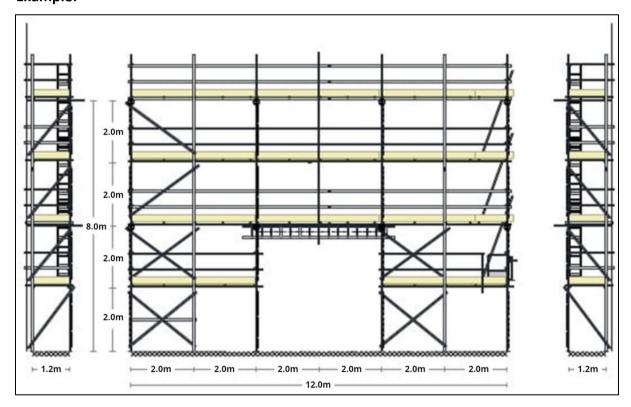

4.2 Design of Plant and Temporary Structures

☐ Tower crane foundation.

Formwork and support system;
Scaffolding;
Catch platform;
Construction rubbish/debris disposal chute;
Runways and ramp used by vehicles;
Support for stability of structure where adjoining area to be excavated o
piled;
Loading platform;
Material and passenger hoist;
Gondola;

Example:

5. RECORD OF MEDICAL CHECK-UP

For personnel who are involved in high risk activities, such as Crane Operators, Working at Height, Working in Confined Space and other activities instructed by S.O.

Instruction: Please fill in name of workers and his/her medical check-up status if they involve in the following activities only and attach a copy of record/result. Add rows for more workers. Type 'NA' if not applicable.

NO.	NAME	IC/PASSPORT NO.	NATIONALITY	CURRENT POSITION	GOVERNMENT MEDICAL STATUS	REMARKS

6. RECORD OF SAFETY AND HEALTH TRAINING

To list down all training include external and in-house training.

Instruction: Training plan shall include site induction, toolbox talk, emergency and other training related to work activities such as working at height, confined space and electrical safety. List of training plan can be added accordingly. Please attach Training Matrix.

6.1 Training Plan

NO.	COURSE TITLE	PLAN DATE and/or FREQUENCY OF TRAINING
1	Site Induction	Example: Every 6 months
2	Toolbox Talk	Daily
3	Emergency TrainingFirefighting ProgramEmergency Response Plan	
4	Other Training Working at Height Electrical Safety

7. EMERGENCY RESPONSE PLAN (PREPAREDNESS, RESPONSE AND EVACUATION)

- To setup Emergency Response Team accordingly to the project site.
- To attach ERP (Emergency Response Plan) which is specifically developed for the project.
- To plan training and drill for ERP

Instruction: Please indicate types of emergencies could happen at project site in 7.1 and establish all relevant emergencies procedure as indicated in 7.2. Attach information of ERT and their training certificates. Attach Site Evacuation Plan in and indicate location of Assembly Points, First Aid Facilities and Fire Fighting Equipment. Fill up information in 7.5 and 7.6 accordingly. List of first aid facilities and fire fighting equipment can be added.

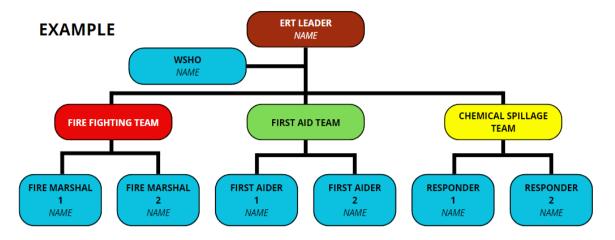

7.1 Types of Emergencies

Fire	Natural Disaster
Medical	Animal Attack
Flood	Adverse weather
Chemical Spillage / Toxic Release	Other:

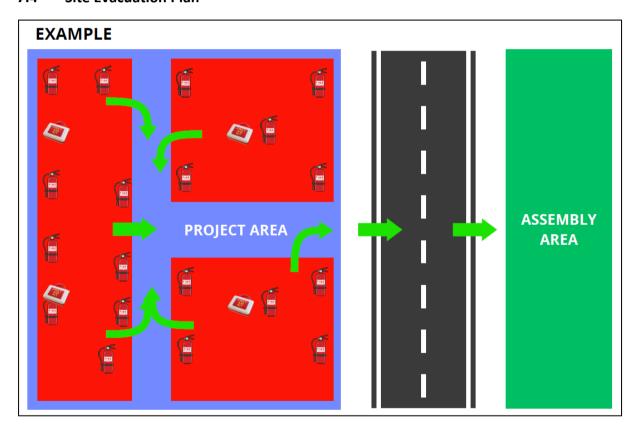

7.2 **Procedure EXAMPLE Emergency Situation Identified** Notify Site Manager / Area Warden Ensure all personnel are alerted of impending emergency **Contact the Emergency Response** Coordinator, inform/brief and await further instructions **Evacuation** required Secure area and plant if safe to do so Rectify / fix problem Secure area and plant if safe to do so Assemble at evacuation point for further instructions and account for all personnel Remain at evacuation point for further instructions Emergency over. All clear given, Return to work Investigate, Report, Review adequacy of ERIMP

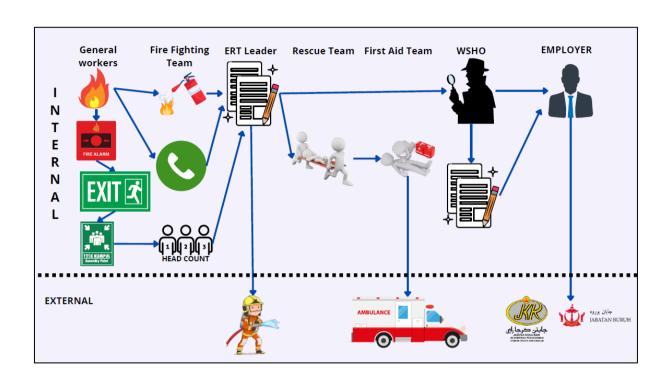

7.3 Emergency Response Team & Contact Number

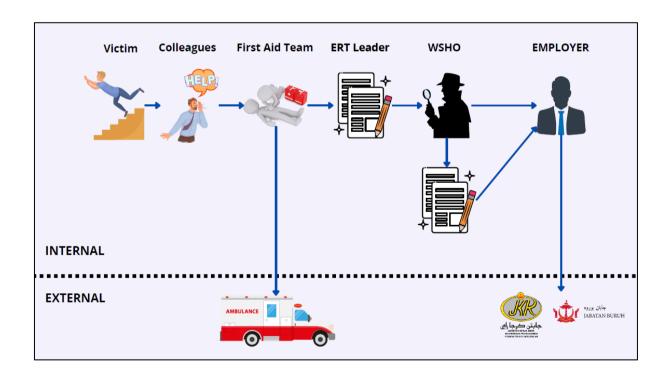

(Please attach copy of training certificates)

7.4 Site Evacuation Plan

7.5 First Aid Facilities

Example:

Total number of first aid room : $\underline{1}$ Total number of first aid box : $\underline{3}$

ITEMS	LOCATION	EXPIRY DATE	PERSON IN-CHARGE				
First Aid Room A							
First Aid Box 1							
First Aid Box 2							
First Aid Box 3							

7.6 Fire Fighting Equipment

Example:

Total number of fire extinguisher : $\underline{4}$

LIST	ТҮРЕ	LOCATION	NEXT INSPECTION DATE	PERSON IN-CHARGE
Fire Extinguisher 1				
Fire Extinguisher 2				
Fire Extinguisher 3				
Fire Extinguisher 4				

8. HAZARDS IDENTIFICATION, RISK ASSESSMENT AND RISK CONTROL (INCLUDE PPE) or JOB SAFETY ANALYSIS (JSA)

- To provide list of work activities.
- To provide HIRARC through Risk Assessment Form for specific activities of the project.
- To be **endorsed by Project Manager**.
- To comply with WSHO 2009 & its Regulations.

Instruction: Please attach list of work activities. The work activities to be listed should neither too big (building construction) nor too small (open valve). For each listed activity, please attach **APPROVED** risk assessment.

8.1 List of Activities

List down all work activities / job activities Example: working at height, excavation etc.

8.2 Risk Assessment of Each Activity

Example:

No.	Hazards What are the hazards?	Impact and Consequence Who might be harmed and how?	Current Controls What are already done?	Severity	Severity Likelihood Risk Ranking		(P,A,E,R)	Additional Control and Mitigation Measures What needs to be done to eliminate or reduce impact of the risk?	Severity	Likelihood	Residual Risk	Recovery Measures What is needed to return to normal situation from the consequence?

Example of JSA

SEQUENCE OF EVENTS	POTENTIAL ACCIDENTS OR HAZARDS	PREVENTIVE MEASURE
Park Vehicle	 Vehicle too close to passing traffic. Vehicle on uneven, soft ground. 	 Drive to area well clear of traffic. Turn on emergency flashers. Choose a firm, level parking area.
raik veilicle	3. Vehicle may roll.	3. Apply the parking brake; leave transmission in PARK; place blocks in front and back of the wheel diagonally opposite to the flat.
Remove Spare and Tool Kit	Strain from lifting spare.	Turn spare into upright position in the wheel well. Using your legs and standing as close as possible, lift spare out of truck and roll to flat tire.
Pry Off Hub Cap and	Hub cab may pop off and hit you.	 Pry off hub cap using steady pressure.
Loosen Lug Bolts (Nuts)	2. Lug wrench may slip.	Use proper lug wrench; apply steady pressure slowly.

9. SAFETY AND HEALTH PERFORMANCE MONTHLY REPORT (OBJECTIVES AND TARGETS)

- Provide HSE Objectives and Targets described in the plan.
- Recommended to set the HSE Objectives and Targets using SMART (Specific, Measurable, Achievable, Realistic, Timely).
- Too add proactive targets as well. For example: 90% compliance of HSE Inspection and Audits (include Manhour Without Lost Time Injury – MLTI)

Instruction: Please list Objectives or Key Performance Indicator (KPI) specifically for the project include targets of each objectives or KPI. The list should include **proactive** and **reactive** objectives or KPI. The number of rows and columns can be added according to the project. For monthly report submission to OIC, please update each objective achievement accordingly.

Example

	TARGET					JAN	- NOV 2	2025					
REACTIVE KPI		M1	M2	M3	M4	M5	М6	M7	M8	М9	M10	M11	TOTAL
MLTI	e.g. 11520												
TOTAL RECORDABLE ACCIDENT	≤3												
LOST TIME INJURY (LTI)													
FATALITY													
OCCUPATIONAL DISEASES	≤1												
FIRST AID CASE	≤1												
ENVIRONMENTAL INCIDENT	0												
NEARMISS INCIDENT	≤ 5												
PROPERTY DAMAGE	≤ 5												
PROACTIVE KPI		M1	M2	M3	M4	M5	M6	M7	M8	M9	M10	M11	TOTAL
SHC MEETING	QUARTERLY												
SENIOR MANAGEMENT SITE VISIT	WEEKLY												
HSE INTERNAL AUDIT	MONTHLY												
EMERGENCY RESPONSE PLAN	2 PER YEAR												
EMERGENCY PREPAREDNESS DRILLS	1 PER YEAR												
HEALTH PROGRAMME	1 PER YEAR												
ENVIRONMENTAL PROGRAMME	1 PER YEAR												
SAFETY PROGRAMME	5 PER YEAR												

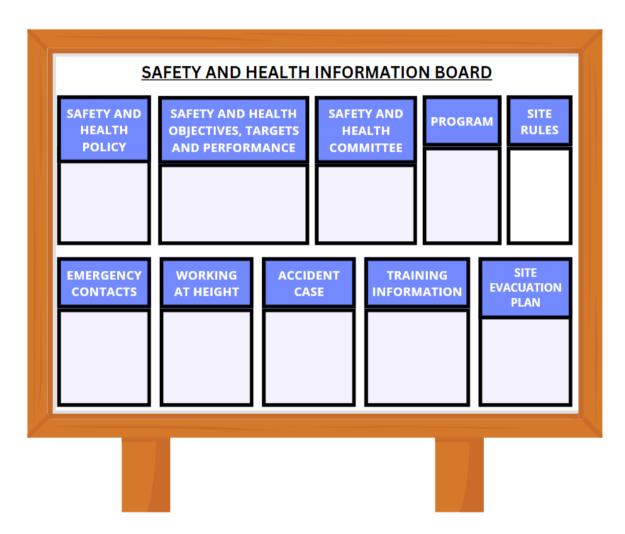

10. DETAILS OF SITE SAFETY AND HEALTH INFORMATION BOARD

To describe the location and the contents of the Information Board (HSE information includes Emergency Contact Details, HSE Performance, HSE Programs and others)

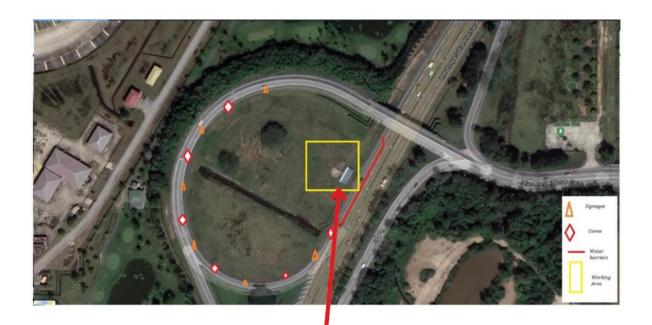

Instruction: Please attach the picture or diagram of Site safety and Health Information Board to be provided at site in 10.1. Refer guideline for the content of Site Safety and Health Information Board. If the project is not at construction site, please provide Site Safety and Health Information Board at office. Please state the location of the Safety and Health Information Board in 10.2.

10.1 Content

Example

10.2 Location

11. PROCEDURE OF NOTIFICATION AND REPORTING OF NEAR MISS, ACCIDENT AND DANGEROUS OCCURRENCE

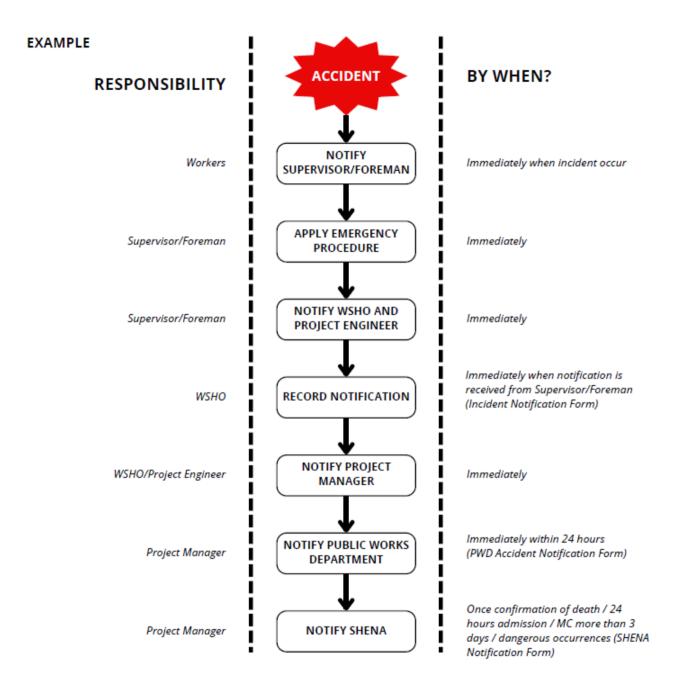

- To comply with WSHO 2009 & its Regulations (please refer to Incident Reporting Regulations 2014).
- Specific procedure including flow chart to notify and report of incident to PWD and SHENA (please refer to www.shena.gov.bn) and other authorities.

Instruction: Please write the name of responsible person under column Responsibility in 11.1. The Position and name can be edited according to project team. Please attach the flow chart of this procedure in 11.2.

11.1 Procedure

NO	STEPS/PROCEDURES	RESPONSIBILITY	WHEN?	OUTPUT
1	Notify Supervisor/Foreman	Workers	Immediately when incident occur	
2	Apply emergency procedure (7.2)	Supervisor/Foreman "NAME"	Immediately	
3	Notify WSHO and Project Manager	Supervisor/Foreman "NAME"	Immediately	
4	Record notification and collect information	WSHO/WSHC "NAME"	Immediately when notification is received from Supervisor/Foreman	Incident Notification Form
5	Notify Project Manager and advise for reporting to PWD and SHENA	WSHO/Project Engineer "NAME"	Immediately	
6	Instruct WSHO to notify PWD and conduct internal investigation	Project Manager "NAME"	Immediately within 24 hours	PWD Accident Notification Form
7	Instruct WSHO to notify SHENA and conduct internal investigation	Project Manager "NAME"	Once confirmation of death/24hr admission/MC more than 3 days/dangerous occurrences	SHENA Notification Form

11.2 Flow Chart

12. FIRST AID FACILITIES (INCLUDE LIST OF FIRST AIDER)

To provide the list of trained First Aider of the project minimum 2 persons and first aid facilities list should include the validity and location detail.

(Refer 7.5)

Example

LIST	LOCATION	EXPIRY DATE	PERSON IN-CHARGE
First Aid Room A Site Office (Lobb			Mr. A
First Aid Box 1	Labour Quarters		Mr. B
First Aid Box 2	Project Team A		Mr. C
First Aid Box 3	Project Team B		Mr. D

List of First Aiders:

N0	FIRST AIDER	CONTACT NO
1.	First Aider 1	
2.	First Aider 2	
3.		

13. LIST OF FIRE FIGHTING EQUIPMENT

To list down location and types of fire fighting equipment to be provided on site. Especially at Site Office/Labour Quarters/Hot Work Activities.

(Refer 7.6)

Example

LIST	ТҮРЕ	LOCATION	EXPIRY DATE	PERSON IN-CHARGE
Fire Extinguisher	ABC Dry Powder	Site Office (Lobby)		Mr. E
Fire Extinguisher 2	CO2	Site Office (Lobby)		Mr. F
Fire Extinguisher 3	ABC Dry Powder	Generator 1		Mr. G
Fire Extinguisher 4	ABC Dry Powder	Welding Work Area		Mr. H
